PASSAIC COUNTY LAW ENFORCEMENT OFFICERS ADMINISTER NALOXONE IN WAYNE ON JANUARY 3, 2017

PATERSON, NEW JERSEY:

January 10, 2017

Passaic County Prosecutor Camelia M. Valdes and Wayne Police Chief James Clarke announce that law enforcement officers in Passaic County administered Naloxone to one subject on January 3, 2017. Naloxone is a medicine administered by way of a spray into the subject's nostrils to counteract an opioid overdose.

Wayne police officers deployed Naloxone at 12:39 p.m. to a 22 year old female who resides in Parsippany, New Jersey. When officers arrived at the location, the subject was observed to be unresponsive and breathing slowly. Officers administered two doses of Naloxone and the subject became responsive and alert. Care of the subject was transferred to local emergency medical services.

Upon responding to the scene, police officers reported observing four (4) hypodermic syringes.

Since 2014, members of law enforcement in Passaic County have received training in the administration of Naloxone to respond to suspected opiate overdoses. This incident is the first (1st) Naloxone deployment in Passaic County in 2017.
